The home features tile entrance, open concept living dining & kitchen, hardwood flooring, a very unique plan with an office/library overlooking the main floor. The upper floor has 2 bedrooms and 2 full bathrooms. The 3rd level has a small office, large family room, half bath & access to the backyard & garage. The lowest level has a finished bedroom, laundry room and partially developed space, plus tons of storage. In addition to the garage there is also additional backyard parking- could even accommodate an RV if needed.
